P1 A1: Activity Plan 2025-2026

Proposers Executive Committee

Plan text

Insert from line 206 to 207:

replicate the success of the 2023 Lyon Congress by increasing the presence of FYEG members through strategic collaboration. In this upcoming mandate we will continue diligently working with Christina Kessler, our representative in the EGP Committee. We aim to clarify within our procedures certain aspects of the representatives work, specifically how the hypothetical dismissal of this position could be implemented. This is not due to our dissatisfaction with the current work done, but rather a safeguard for future generations.

Reason

This mandate we tried to find an IRP change which would clarify this process, however, we were unable to find a clear wording that works with the current procedures of FYEG and the EGP. With this amendment we are making sure this is something the next Executive Committee will do.
