

C3-024 to A harm reduction approach to drug policy

Antragsteller*innen: Grüne Jugend (decided on: 05/22/2017)

Text

Insert in line 24:

ceaselessly fight for every person's right to proper health care.

It is not our intention to play down the dangers of narcotics. The money that is saved from the expensive persecution regime needs to go into financing broadly designed drug abuse prevention programmes for all persons living in Europe (with a focus on youth from the age of 8-18) and addiction consultation and withdrawal programmes for anyone needing them, which are currently funded inadequately or non-existing.

Reason

Harm reduction involves a proper funding of drug abuse prevention and therapy.
