P1 A4: Activity Plan 2025-2026

Proposers Les Jeunes Ecologistes

Plan text

Insert from line 48 to 49:

platform to foster more independent and bottom-up relations between the FYEGers and their MOs.The Green Base is also a space dedicated to hold debates of relevance for the MOs all throughout the year, allowing political discussions between MOs to exist outside of the GAs, especially in the form of online live meetings.

Reason

This follows the same logic than the amendment on the Forum: the goal is to foster a culture of political debate and longer discussions and sharing of arguments outside of the very limited space that the physical GA allows. This is also a chance for MOs and MOs representents who don't yet have a large network within FYEG to discover different MOs position, to make their own heard, and give more time for opinions to be formed or changed.
