### Text

#### From line 73 to 76:

- ~~In a time when the future of Europe is being discussed as a merely academic exercise, we require that municipalities are to be put at the centre of European policy-making. They cannot remain silent, without power, anymore. Europe must be local if it is to succeed.~~ The role of municipalities in decision- and policy-making processes needs to be strengthened massively. In order to succeed, Europe must embrace the principle of subsidiarity. This also means that nation-states need to pass power to municipalities.
