SR1 Statutory resolution: Resolution on Solving Unclear Process with Tie-breakers

Proposer: Executive Committee
Agenda item: 9. Statutory Documents

Motion text

Noting that

- The 2025 Internal Rules of Procedure (IRP) do not clearly define what to do in case there are tie-breakers at any point in the STV system
- If adopted, the proposed 2025 IRP will amend and set a specific course of action that needs to be taken to resolve tie-breakers.

Considering that

- The changes to the Statutes and IRP regarding procedures only come into force for the subsequent GA onwards;
- The possibility of tie-breakers in the STV system is low but not impossible, as we saw last year

The Executive Committee requests, with the approval of the General Assembly, that

- The proposed 2025 IRP changes regarding tie-breakers, if adopted, will function retroactively and already be implemented for this General Assembly voting.

Note: As the Statutes and IRP are being amended, this resolution may only work if all relevant changes regarding the tie-breakers in the proposed 2025 Statutes and IRP are adopted.

Reason

As indicated in the I1 A7 to change the IRPs to clarify the process for tiebreakers, the EC is proposing this statutory resolution to apply these changes already for the votes held at the GA in Paris.
