

## **C2-049 to Time to expand the right to vote**

Antragsteller\*innen: RED EQUO JOVEN (decided on:  
05/21/2017)

### **Text**

#### **From line 49 to 52:**

1. that all countries in the European Union lower their voting age in the European election to ~~15~~16 years.

2. that all countries in the European Union lower the age limit to run for the European parliament to ~~15~~16 years.

#### **In line 55:**

to ~~15~~16 years in all member states.

### **Reason**

Many organizations from all around Europe, and especially the European Youth Forum, are demanding to expand the right to vote to the age of 16. In most european countries 16 is the age people can start to work and pay taxes. We think that by proposing 16 instead of 15 the voice could be stronger and make a better impact.
