Political Platform text

From line 124 to 127:

water, and the climate, and is based on agroecological practices and organic agriculture is urgently needed. Artificial fertilisers and pesticides* ~~should~~must be phased out within the next 7 years (until 2028), starting with the most dangerous (e.g. neonicotinoids and glyphosate). A rapid drop in animal farming and in the consumption of animal

Reason

"should" is too weak + timeframe
