R12 A3: End the Fossil Fuel Economy. Now.

Proposers Scottish Young Greens

Motion text

From line 30 to 31:

- ~~to immediately stop the import of oil and gas, especially coming from dictatorships and LNG production~~
- develop just transition plans which rapidly phase out fossil fuel usage while minimising the socio-economic disruptions to workers and communities

Reason

This is impractical and would hurt consumers most as well as being virtually impossible. Rapid phase out would be more viable.
