Agenda item: 8. Ecosprinter Editorial Board Candidates

# THIS IS AN ALTERNATIVE MOTIVATION LETTER

FROM JAVIER FOR  
ECOSPRINTER EDITORIAL BOARD

**EVEG**

**2022**

**JAVIER**

# WHO AM I?

My name is Javier Larios. I'm **an activist who fights for social, climate, and gender justice**. I strongly believe in the values of the Green movements.

I'm originally from Mexico, based in Paris with a broad experience in European topics, particularly; on social and climate subjects.

Because of my personal, economic and social background, I have been in contact with distinct social and economic groups and experienced different situations: from inequalities to privileges. This position has allowed me to have a broad picture of different social fights. To fight for the topics that concern me but also to stand in solidarity with other movements.

Since 2012, I have used my **creativity, skills, motivation and knowledge in media, graphic design, and multi-media production for social change**, working and collaborating with international institutions and NGOs in Mexico and Europe. I believe on the power of institutional action, media and street action.

**I want to go further this time.** I want to level up my role in the fight for a sustainable, social & inclusive Europe!

I want to become a member of Ecosprinter Editorial Board!

MY EXPERIENCE WITHIN

# THE GREEN MOUVEMENT

Former-communications Officer of  
FYEG (2018)

Experience collaborating with the  
European Greens, Greens/EFA, FYEG.

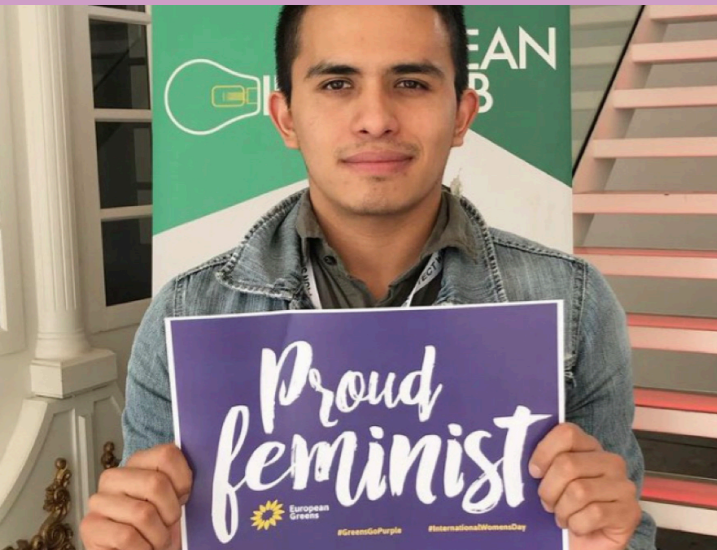

Relationship with the Global Young  
Greens, including redesigning their  
logo.

I want to become a member of  
Ecosprinter Editorial Board to be part  
of the engine of change, to keep  
involved in the Green movement!

I'm a proudly Latino migrant, queer,  
ecologist, feminist (or feminist-ally,  
depending on your perspective)  
activist!

**Representation matters!** I wouldn't  
say I'm be the voice of the voiceless;  
because we all have voices, but  
I want to support and use my  
resources and skill to amplify the  
voice of those we've been oppressed.

I have experience and a lot of energy  
and motivation to share and to use  
them on the streets, in media and in  
institutions.

Global Young Greens logo redesign 2020

If I become a member  
of Ecosprinter, I would  
propose to collectively  
generate news ideas on  
how to improve and refresh  
Ecosprinter, looking ahead  
to the European elections  
of 2024, including a new  
visual and identity style.

To improve its visibility  
on social media to better  
communicate on the topics  
and values of the Green  
Movement.
