Political Platform text

Insert from line 1464 to 1465:

increasing inequalities. We support the introduction of public housing quotas by city and by neighbourhood. **To prevent pressure on the housing prices on the private market, student cities need sufficient and quality student housing. Investments should be increased in student housing as well.**

Reason

Students who live in other cities than their original residence also need quality housing. If this gets neglected, students would have to rely more on the private housing market, and that would increase pressure on housing in cities in general.
