Political Platform text

From line 1536 to 1538:

We support the ~~full~~ legalisation **and regulation** **of** ~~**drugs**~~ **soft drugs**[Space]across Europe, while increasing prevention measures**, as well as the decriminalisation of the use of hard drugs while keeping the production of hard drugs illegal**. Drug legalisation would deprive organised crime structures of a lucrative source of income. Tax revenues from drug sales should be used to

Reason

While legalisation leads to harm reduction, the gross level of use would certainly increase, driving an increase in the number of people using hard drugs. The same harm reduction can be achieved by decriminalisation of use while still maintaining gross level of use of hard drugs.
