Political Platform text

Insert from line 742 to 744:

not endanger climate objectives and if fossil fuels are no longer used for electricity production on the same network. FYEG strongly condemns the output from nuclear power plants being replaced by fossil fuel power plants, thus increasing dependence on fossil fuels from the Russian Federation and other authoritarian regimes. European countries should not export their nuclear technology or build nuclear plants outside of Europe.

Reason

Amendment of PP1 A2

The use of 'fossil gas power' is unclear and limitative, our counter-amendment changes this to 'fossil fuel power' to cover oil, gas, and coal.
