PP1 A20

Political Platform

Proposer: DWARS, GroenLinkse Jongeren

Title: **PP1 A20: Political Platform**

Political Platform text

From line 742 to 744:

not endanger climate objectives and if fossil fuels are no longer used for electricity production on the same network. European countries should not ~~export their nuclear technology or~~ build nuclear plants outside of Europe. European countries that export energy technology to third countries should firstly prioritise renewable and sustainable green energies, with export of nuclear technology being a last resort.

Reason

Amendment of PP1 A3

We agree with the changes and reasoning of Protests, however we believe that no new nuclear plants should be built abroad. With regards to the export of energy technology, that in any case export of renewable and sustainable green energy technology must be prioritised before nuclear technology - the latter only as a last resort.
