PP1 A20

# **Political Platform**

**Proposer:** DWARS, GroenLinkse Jongeren

Title: PP1 A20: Political Platform

#### **Political Platform text**

## From line 742 to 744:

not endanger climate objectives and if fossil fuels are no longer used for electricity production on the same network. European countries should not export their nuclear technology or build nuclear plants outside of Europe. European countries that export energy technology to third countries should firstly prioritise renewable and sustainable green energies, with export of nuclear technology being a last resort.

#### Reason

## **Amendment of PP1 A3**

We agree with the changes and reasoning of Protests, however we believe that no new nuclear plants should be built abroad. With regards to the export of energy technology, that in any case export of renewable and sustainable green energy technology must be prioritised before nuclear technology - the latter only as a last resort.
