Political Platform text

Insert from line 1536 to 1537:

We support the full legalisation and regulation of drugs across Europe, while increasing prevention measures. Drug legalisation would deprive organised crime structures

Reason

Alternative amendment to PP1 A17. the differentiation between so called "soft" and "hard" drugs is outdated and scientifically untenable. furthermore, regulation is impossible when substances are only decriminalised and decriminalisation is usually a risk free subsidy for organised crime.
