PP1 AA17.2

Political Platform

Proposer: DWARS

Title: **PP1 AA17.2: Political Platform**

Political Platform text

From line 1536 to 1539:

We support the ~~full~~ legalisation and regulation of soft drugs across Europe, while increasing prevention measures, as well as the decriminalisation of the use of hard drugs while keeping the production of hard drugs illegal. Drug legalisation would deprive organised crime structures of a lucrative source of income. Tax revenues from drug sales should be used to fund the healthcare and prevention sectors and social services. To prevent further hazardous waste detrimental to the environment and dangerous to local communities, anonymous dumping points will be created for drug waste such as used injections. Furthermore, we call for the facilitation of drug consumption rooms and other intiatives that allow drug users to consume drugs safely with the oversight of health professionals, and to easily receive accessible help.

Reason
Alternative amendment to PP1 A17.
