R1 A4: Green Space Policy

Proposers Protests

Motion text

From line 60 to 64:

These are everything from dust to pens and broken satellites that are as big as buses. ~~Which usually moves at about 27,000 km/h.~~ In the worst case, it could be that in the future we will not be able to postpone things into space because there is too much rubbish in the way - the so-called ~~Keppler~~Kessler syndrome. Already today you need to plan launches for clusters of space debris. That is why we

Reason

Speed is depending on the attitude and the speed is irrelevant in this sentence.
Also it is the Kassler syndrome
