## R1 A4: Green Space Policy

Proposers

Protests

## Motion text

## From line 60 to 64:

These are everything from dust to pens and broken satellites that are as big as buses. Which usually moves at about 27,000 km/h. In the worst case, it could be that in the future we will not be able to postpone things into space because there is too much rubbish in the way - the so-called KepplerKessler syndrome. Already today you need to plan launches for clusters of space debris. That is why we

## Reason

Speed is depending on the attitude and the speed is irrelevant in this sentence. Also it is the Kassler syndrome
