R1 A7: Green Space Policy

Proposers Scottish Young Greens

Motion text

Insert from line 8 to 9:

it's the logo of a company on the side of the spacecraft that lands on Mars with humans, or if it's a flag that represents humans and not money.

Space exploration has clear scientific and cultural benefits but we also acknowledge that it is enormously resource-intensive which makes it very attractive to private individuals and companies. All space exploration should only be done when necessary, especially if private companies are involved, and has to serve the public interest. Space is not a playground for billionaires.

Reason

Adding this paragraph to make it very clear that space exploration has to be of public interest and not capitalistic reasons from billionaires and companies.
