imperialism. Moreover, FYEG supports Finland and Sweden’s wishes to join NATO, as that will make the Baltic Sea region safer and condemn any obstruction and manipulation by others in realizing the right of these countries to join the alliance.

Reason

Turkey's president has restated his opposition to Finland and Sweden joining Nato and stated his "requirements to allow Finland and Sweden join Nato"

- Public condemnation of all Kurdish organisations;
- Supply Turkey with F-35 fighter jets;
- Lifting restrictions on arms exports to Turkey;
- Withdrawal of US sanctions against Turkey for purchasing S-400 missile defence system from Russia.

This mean he tries to use NATO in personal interest of Turkish govorment which is not acceptable especially if we want NATO to be organization that protects countries, prevent future conflict and if we expect NATO to be a democratic organization.
