R8 A1: No Discrimination on Migration

Proposers DWARS, GroenLinkse Jongeren

Motion text

From line 20 to 25:

- To ~~welcome~~fight discrimination of refugees on the basis of race, sexuality, or gender identity, and ~~help~~to welcome all refugees, whether they come from Ukraine or from any other place in the world.
- ~~To stop all deportation at borders, acknowledging the necessity of humanitarian duty instead of the construction of "Fortress Europe".~~
- To stop deportation and pushbacks at the borders of the EU, and replace Frontex and the concept of “Fortress Europe” with a humanitarian alternative focused on saving and welcoming refugees.
- To immediately stop the criminalization of people and NGOs devoted to welcoming and helping refugees, and to finally support ~~them~~these organisations.
- To combat refugee trafficking by providing real and legal alternatives to traffickers for refugees to flee to the EU, especially for refugees fleeing conflicts, or refugees for whom the journey is too costly and dangerous.
- To support refugees in the application process, and provide them with humane temporary housing, work, mental healthcare, and support to integrate in the countries they are allocated to.
- To end EU refugee cooperation treaties with Turkey and Libya, which keep out refugees on basis of their background and which put the most vulnerable refugees in even more dangerous situations.

Reason

We would like to expand and specify the importance of intersectionality in this resolution. We want to provide specific goals to improve the care of refugees. We would like to stop the criminilization of support networks and infrastructure such as NGOs. To improve the overall quality of the EU's refugee system.
