R16 A7: ENERGY INDEPENDENCE AND INFRASTRUCTURE: Towards a truly interconnected and sustainable energy market

Proposers FYEG Executive Committee and DWARS

Motion text

Delete from line 77 to 78:

1. capacity and reducing costs and therefore prices in order to achieve energy independence, by:[Space]

Insert after line 83:

1. 1. Enshrining the right to energy within the European Charter of Human Rights and in European energy law.

Delete from line 91 to 92:

2. essential step to ensure a functional and efficient European energy market, as well as a necessity for more sustainable energy supply, by:[Space]

Reason

Due to the merging of the two resolutions, a stronger attention is paid to access to energy and energy povert. Therefore the right to energy becomes very relevant and shoulf be claimed
