Financial Control and Advisory Committee Candidates

MOTIVATION LETTER

Dearest friends in FYEG,

I am delighted to be running as a member of the The Financial Control and Advisory Committee and I would like to tell you why and what some of my motivations are! During the pandemic I started engaging more in politics and decided to be a member of the young greens. I have always cared about the environment, so for me it was an easy decision to join the young greens.

Third grade was the first time I felt like I could have influence. In student council I could bring up all my ideas and share them with others who cared. After a year in the student council, I wanted to join again. In seventh grade I became the president of the student council, that job included holding the 17th of may speech. The older I got, the more I realised that I wanted to spend more off my time engaging in political activities. In 2019 I had more time, and started to watch the news every day. Every time there was news involving politics I got really excited. After learning more about the Norwegian political system I decided to join the young greens.

Personally I think that international communication is very important when it comes to politics. Not everything, and especially not saving the world can be done in one country alone. So FYEG is something I think is really smart for politics.

Economics has interested me for a long time, and I have thought about using my high school years to specialise myself in economics. Therefore I think this will be a very good opportunity for me to learn more. I also think I would fit good into this role because I have a big interest in learning more about economics.

I didn't really know that much about FYEG until I heard about this position. I did some research and felt like this was definitely something for me. I might not know everything right away, but I am a fast learner and will spend my time finding out more. It would be an absolute honour getting to work in the The Financial Control and Advisory Committee. I am looking forward to hearing from you!

Wishing you all the best,

Linnea Hovland Esnali

Financial Control and Advisory Committee Candidates

Motivation letter FCAC

Dear readers,

In the last year as part of the executive committee of FYEG I've had the opportunity to become well-acquainted with the importance of finances within the organisation. Many choices that we have made as a board are intrinsically linked to the financial means that FYEG has. My personal view on finances is that it is deeply political, what we choose to use our funds on will shape our political and organisational future. I hope to continue my political work within FYEG by being a member of the Financial Control and Advise Committee for the coming two years.

Previously, I've had multiple years of experience as a treasurer within the Dutch young greens (DWARS) and a student association. This prior experience is on a smaller scale and concerning a smaller budget. However, I do have a good understanding of FYEGs financial situation and I'm highly motivated to learn quickly. I am a precise worker and have enough capacity to fulfil the requirements that are part of the committee work. I hope to bring my energy and experiences to the committee and look forward to advising FYEG on future financial steps.

Thank you for your consideration! Please let me know if you have any questions. I hope to see you all at the General Assembly very soon.

Green regards,

Miriam Shaw
