R11 A5: 2% of GDP towards climate solutions

Proposers Greens of England & Wales

Motion text

Insert from line 47 to 48:

process in itself and threatens the energy security of communities in the exporting countries. **In addition, the EU should freely share solutions for generating renewable energy sources with the rest of the world, and should end the use of patents for pro-climate solutions, to ensure profit does not come before achieving sustainable energy for the whole globe.**

Reason

want to make this a global solution and not a way for EU countries to profit off of other countries
