

R11 A5: 2% of GDP towards climate solutions

Proposers

Greens of England & Wales

Motion text

Insert from line 47 to 48:

process in itself and threatens the energy security of communities in the exporting countries. In addition, the EU should freely share solutions for generating renewable energy sources with the rest of the world, and should end the use of patents for pro-climate solutions, to ensure profit does not come before achieving sustainable energy for the whole globe.

Reason

want to make this a global solution and not a way for EU countries to profit off of other countries
