R4 A2: A Harvest of Change: A Resolution to Reap Fairness in Agricultural Lobbying

Proposers Joves Ecosocialistes

Motion text

Insert after line 168:

- Defend in front of the lobbies a Common Agricultural Policy (CAP) and a Farm to Fork Strategy which are coherent with the Green Deal and breaks down the status quo of farming industrial power. A green and just CAP and EU food strategies benefiting small and local producers are needed to protect animals, environment and climate.

Reason
To include the just transition perspective and the small farmers.
