Proposers Joves Ecosocialistes

## **Motion text**

## Insert after line 168:

Defend in front of the lobbies a Common Agricultural Policy (CAP) and a Farm to
Fork Strategy which are coherent with the Green Deal and breaks down the status
quo of farming industrial power. A green and just CAP and EU food strategies
benefiting small and local producers are needed to protect animals, environment
and climate.

## Reason

To include the just transition perspective and the small farmers.
