R14 A2: Solidarity with Ukraine for as long as necessary

Proposers Joves Ecosocialistes

Motion text

From line 50 to 54:

- Accelerate the pace and volume of military aid to Ukraine to counter the Russian war of aggression~~. We believe that Ukraine has an inalienable right to self-defense against an aggressor, and successful Ukrainian military operations to de-occupy its own territories are steps towards establishing real peace in the country.~~ and ensure the retreat of the invading troops through the exercise of Ukraine's right to self-defense against the aggressor. Real and sustainable peace is only achievable once Ukraine successfully de-occupies its territories. The complete military withdrawal of Russia is a prerequisite to foster the needed cease-fire and to reinitiate the talks that were in the first place broken off by Russia by launching an illegal war of aggression.

Reason

We hope this amendment serves two objectives. (1) more direct and precise language, for example, Ukraine has the right to self-defense and this is a fact, not something we believe. (2) tackle the current debate on cease-fire and negotiations/talks. Specially groups that do not grasp the need to stop equating the victim and the aggressor, these concepts (cease-fire and talks) have been misused and weaponised. We suggest to include it as a final objective after the much needed retrieve of the Russian invasor.
