R8 A5: Addressing the Structural Issues Underlying the Tide of Disinformation

Proposers FYEG Executive Committee

Motion text

From line 56 to 58:

- Legislation to dismantle and prevent media monopolies (for example, antitrust laws)~~, so the power~~ **to** ~~**create information and knowledge is not held by**~~ **strengthen** **a** ~~**powerful minority**~~**diverse media landscape**

Reason

The current phrasing is unfortunate, as the reference to a powerful minority that controls information could be associated with antisemitic conspiracy theories. We suggest a rephrasing in order to avoid such associations.
