

## **R8 A5: Addressing the Structural Issues Underlying the Tide of Disinformation**

Proposers

FYEG Executive Committee

### **Motion text**

#### **From line 56 to 58:**

- Legislation to dismantle and prevent media monopolies (for example, antitrust laws), ~~so the power to create information and knowledge is not held~~ **by** strengthen a ~~powerful minority~~ diverse media landscape

### **Reason**

The current phrasing is unfortunate, as the reference to a powerful minority that controls information could be associated with antisemitic conspiracy theories. We suggest a rephrasing in order to avoid such associations.
