

## **I1 A12: Internal Rules of Procedure (2023 Proposal)**

Proposers

Swiss YG

### **Motion text**

#### **Insert from line 508 to 510:**

prepares the financial report to the Executive Committee and to the General Assembly. The financial report also comprises a paragraph in which the Treasurer explains their considerations on the Financial Control and Advisory Committee's last year's recommendations and declares which of these recommendations were implemented in the past year.

prepares a budget plan for the General Assembly. The budget plan also comprises a paragraph in which the Treasurer explains their considerations on the Financial Control and Advisory Committee's recommendations and declares which of these recommendations are planned to be implemented in the next year.

### **Reason**

the Financial Control and Advisory Committee checks FYEGs finances and the processes connected to its finances once a year and gives recommendations on how and where to improve. FYEG's treasurer is providing a financial report and a financial plan. unfortunately FYEG's financial report and plan do not mention ec's considerations on fcac's last year recommendations, neither declaring which of these recommendations were implemented nor what is planned to be implemented in the next year.

even though some of these things can be figured out in the financial report, plan, sec gen report and plan, FYEG and its IRPs lack a definition in which reports this information should be dealt with.

we firmly believe it is important to write down an implementation and through this improve accountability and transparency towards the member organisations.
