R6 A2: Concrete social policies for a real social and fair Europe

Proposers FYEG EC

Title

Change to:
R6 Concrete social policies for a real social and fair Europe

Motion text

From line 84 to 95:

We propose the FYEG's ~~executive board~~Executive Committee to :

- ~~Implement a back-to-school campaign for a European minimum income from the age of 18. It may be a significant marker to launch the dynamic for the European campaign and to increase the capacity and number of members of our Member Organisations thanks to a campaign that is appealing to young people because it is significant for their quality of life.~~
- **Include social justice and policy as one of the major pillars of FYEG's European campaign. Working together with member organisations to implement these campaign goals' in their countries to make it appealing for young people to vote for Greens, especially Young Greens.**

~~We suggest Member organisations of the FYEG :~~

- ~~To implement FYEG's Campaign for a social Europe in their local context.~~
- ~~Spread the voices of young ecologists sharing their stories on social and economic rights.~~
- ~~To advocate towards their local, regional and national governments to implement and enhance the exposure of EU wide social projects.~~

Reason
With the EU election campaign coming up, FYEG's campaigns should focus on making social justice a pillar of the election campaign. This should be done in partnership with our member organisations.
