Motion text

From line 61 to 62:

~~FYEG demands swift integration of Ukraine and Moldova into the EU, which will reinforce regional stability and unity.~~

FYEG supports the efforts of the Ukrainian and Moldavian people to live in peace, security and democracy. Their integration into the European Union would be a way to strengthen peace, security and democracy in Europe, especially in Eastern Europe; so it would be the case with Western Balkan countries. In addition, any enlargement should go hand in hand with institutional reforms that assure an efficient governance of the European Union

Reason

Although we support the will of Ukraine and Moldavia to protect their democracy and security by accessing the EU, we believe it must go hand in hand with institutional reforms that assure efficient governance of the EU. Furthermore, we think other countries, such as those in the Western Balkans would also benefit from being EU members and mustn't be forgotten when talking about the enlargement of the EU
