

R10 A1: Resolution on nuclear

Proposers

DWARS

Motion text

Delete after line 6:

Insert from line 89 to 92:

Currently operating powerplants will be maintained for their lifespan and will be shut down earlier if fossil fuels are no longer used for electricity production on the same grid. The powerplants should continue to operate and produce electricity as long as national nuclear safety authorities deem the powerplants safe and reliable or if they are no longer needed for sufficient electricity supply. The modernization efforts and continuous safety improvements overseen by the nuclear safety authorities are crucial for the usage of nuclear

Delete from line 120 to 124:

Reason

Preferably all our energy is from green sources. Power plants are an alternative that can be used, so long we are still working towards other options. If we no longer need fossil fuels for our energy supply, the power plants should be closed earlier.
