# Application for the Finance Control and Advisory Committee

Dear Delegates,

During this year's European election, I had the amazing opportunity to take part in FYEGs election campaign and support it as a team leader through the green base. Approaching political issues from this supranational perspective with the other lovely volunteers was just plainly a fun time. Especially experiencing this wide range of opinions, positions and backgrounds from all over Europe.

The EU election is now over, however the issues we are facing persist. That is why I want to further support and be a part of FYEG to keep approaching these issues, especially outside the hustle and bustle of prominent elections. Particularly by spreading and coordinating activism on the local level throughout Europe.

My political journey, until this January, has been defined by participation in and organisation of this type of politics. Mainly as political secretary of a Green Youth chapter, but also with FridaysForFuture, the DGB-Youth and other local groups.

Ever since fundraising for one of these, the first Christopher Street Day Parade in Coburg, back in 2022, I have become interested in the topics of financing activism and fiscal politics. This year's election campaigns and the struggle for the German national budget have only heightened this interest. So far, I have served as interim treasurer of the Green Youth in Coburg and have been responsible for FridaysForFuture Coburg's finances for around a year. I am excited and eager to learn more about NGO financing by hopefully being part of the Financial Control and Advisory Committee.

Thank you for taking the time to read my application. I hope you have a lovely General Assembly ^\_^

Best regards,

Mika

(alternatively, you might know me as Milo)

# FINANCIAL CONTROL AND ADVISORY COMMITTEE

## MOTIVATION LETTER

**THEO LECARPENTIER**

**Dear fellow Young Greens, Dear friends,**

It is with great pleasure and motivation that I share with you my motivation letter to run for the vacant positions of Financial Control and Advisory Committee within our lovely Young European Greens organisation.

As much as I love grassroots action or talking for hours about French politics (especially at the moment), I also have another passion: **numbers in Excel Sheet and budget monitoring**. Although this may seem boring or annoying to some (rightfully so!), I've developed a certain understanding of its importance during my last professional and volunteer experiences, within the member organisation *ecolo j* as treasurer.

I've been involved in the youth field for many years now, and have held a number of positions related to the financial management of European programs and projects, including those funding European Young Greens' projects/activities. Through the different audits and financial reports that have submitted, and approved (ranging from budgets of 10k/€ to 600k/€), I've had the chance to gain some experience in this field that could be useful for the position within the FCAC and the European Young Greens.

In particular, I've had some **experience in fundraising** for organisations of the same size as FYEG and I'd be more than happy and motivated to put my knowledge at the disposal of our organization's economic development if it is asked or needed.

Unfortunately I won't be able to make it to Dublin for this GA, which looks promising and interesting. However, I remain at your disposal should you have any questions about my candidacy do not hesitate to contact me.

*Green and activist regards*

# Théo Lecarpentier

FINANCIAL CONTROL AND ADVISORY  
COMMITTEE CANDIDATE

## ABOUT ME

European politics nerd and curious person, I have always been interested by innovative and new ways to reach out to young people to inform them and disseminate the green values and the situation we are facing to empower them.
