May 1, 2025

Dear FYEG and member organisations,

My name is Charlotte (She/Her), I'm 20 years old and a member of the *Grüne Jugend* in Germany since 2023. I am hereby applying for the open FINTA position in the Financial Control and Advisory Committee.

Something about me: In my year of orientation studies in Tübingen I lived in a giant house-share with 52 other students, and managed our finances as well as our common food stock. That's where I discovered my enjoyment of managing big sums of money (though those were tiny compared to FYEG's budget), doing a good housekeeping, and, most importantly, Excel Sheets.

But when I look back on my role then now, I do have concerns about how little the supervision on my bookkeeping was.

Since then I have discovered the magic of ****audits**** and have taken part in the audits of the *Grüne Jugend Thüringen*.

While it is not exactly glamorous to search through heaps and heaps of bills, checks, and bank transfers, it has to be done. A huge organization like the FYEG has to keep track of its funds to be able to keep the show running.

With my thoroughness, attention for details and tendency to frown a lot I think I could do a good job at that on the FCAC. It is important to me that the FYEG sticks to its self-imposed guidelines, especially viewing budgeting through a feminist lense and viewing it as a way to create a more equal playing field for all. I would like to take part in this work and offer all of my knowledge of numbers, logic and patience, painstakingly acquired in one and a half years of lectures on analysis.

As I have mostly been active in my region's group of the *Grüne Jugend*, most of You won't know me. I would be honoured if You'd still put Your trust in me, and am available for any further inquiries by e-mail.

Kind Regards,

Charlotte Beese
Applicant for the FCAC
