R6 A3: United in Diversity: Safeguarding Europe's Linguistic Heritage

Proposers Vihreät Nuoret

Motion text

Delete from line 76 to 77:

- That Minoritized languages such as Catalan, ~~Romani~~ and other languages be recognized as official EU languages.

Reason

We would like to change this example to Northern Sami since Sami languages are not mentioned in the text. There is a strong concensus within the Romani speakers in Finland that the language should not be taught outside of the community. Granting EU status for this language would therefore go against of what the community wants- hence the amendment at the bottom of the text.
