R6 A4: United in Diversity: Safeguarding Europe's Linguistic Heritage

Proposers Óige Ghlas, Young Greens

Motion text

Insert from line 76 to 77:

- That Minoritized languages such as Catalan, Romani and other languages be recognized as official EU languages.

-That languages which are minoritized across multiple countries (such as Romani languages) be supported by regional, national, and multi-national administrations.

Reason

Given that an amendment could remove mention of Romani languages, it is important to have a specific point reiterating support for the languages and its speakers.
