Proposers Zelena omladina Srbije

Motion text

Insert from line 78 to 79:

- That the right of all people in the EU to study in their local minoritized language in public education systems be fully recognized.
- That official higher education programs be introduced in European countries for each language spoken natively by at least 0.5% of the population in said country.

Reason
We believe this change is in the spirit of the resolution and enables these languages to academically flourish.
