R2 A4: Bans Off Our Bodies: Protecting Bodily Autonomy and Reproductive Justice

Proposers YGS - Young Greens South Tyrol

Motion text

Insert from line 25 to 26:

6. as per the EU4Health Program and the United Nations Sustainable Development Goals (SDGs).Moreover, ensuring appropriate sex education in schools across all member states should be of priority and covering comprehensive explanations of safe sex and contraceptive methods, including the side effects that hormonal contraception could have. It should also entail extensive consent education, teaching young generations how to communicate boundaries and understand mutual respect in sexual relationships.

Reason

An addition on education because some EU-States do not have mandatory sexual education in schools.
