Dear FYEG's 2025 General Assembly,

The Europe we all want is one that is federal, democratic, and sustainable; not the fractured, misinformed, and exploitative union we currently have.

We play an essential role in the campaign for this Europe. We dedicate hours of our lives to advocating for progressive policies, changing people's minds on the doorstep, and building the activist communities that keep the movement going.

Our movement sadly functions within the capitalist hellhole we all inhabit. We consequently must ensure the financial security of FYEG so that the fight against climate change and fascism only ceases when we have obtained the sustainable federal democracy that we dream of, not insolvency.

Therefore, I will use my cost control and fundraising experience to work with my prospective fellow Financial Control and Advisory Committee (FCAC) member, Theo Lecarpentiar, in assisting the Treasurer and Secretary-General in financial decisions, ensuring the congruency of FYEG's expenses and resolutions, and presenting this information in an accessible and engaging format to delegates in the General Assembly.

I would be eternally grateful to be elected to the Financial Control and Advisory Committee of FYEG and have the opportunity to safeguard the movement's future.

In solidarity,

Harry Simpson (*he/they*)

May 1, 2025

Dear FYEG and member organisations,

My name is Charlotte (She/Her), I'm 20 years old and a member of the *Grüne Jugend* in Germany since 2023. I am hereby applying for the open FINTA position in the Financial Control and Advisory Committee.

Something about me: In my year of orientation studies in Tübingen I lived in a giant house-share with 52 other students, and managed our finances as well as our common food stock. That's where I discovered my enjoyment of managing big sums of money (though those were tiny compared to FYEG's budget), doing a good housekeeping, and, most importantly, Excel Sheets.

But when I look back on my role then now, I do have concerns about how little the supervision on my bookkeeping was.

Since then I have discovered the magic of **\*\*audits\*\*** and have taken part in the audits of the *Grüne Jugend Thüringen*.

While it is not exactly glamorous to search through heaps and heaps of bills, checks, and bank transfers, it has to be done. A huge organization like the FYEG has to keep track of its funds to be able to keep the show running.

With my thoroughness, attention for details and tendency to frown a lot I think I could do a good job at that on the FCAC. It is important to me that the FYEG sticks to its self-imposed guidelines, especially viewing budgeting through a feminist lense and viewing it as a way to create a more equal playing field for all. I would like to take part in this work and offer all of my knowledge of numbers, logic and patience, painstakingly acquired in one and a half years of lectures on analysis.

As I have mostly been active in my region's group of the *Grüne Jugend*, most of You won't know me. I would be honoured if You'd still put Your trust in me, and am available for any further inquiries by e-mail.

Kind Regards,

Charlotte Beese  
Applicant for the FCAC
