R5 A2: Overtourism in the Alpine Region: Reclaiming Balance

Proposers Grønn Ungdom

Motion text

Insert after line 88:

- **That the project Yoalin, which promotes sustainable travelling and hiking for young people, will be strengthened andsupport that the idea behind Yoalin becomes a solution in other areas in Europe like the Nordic countries that has a huge nature area.**

Reason

Yoalin which stands for Youth alpine interrail provides around 100 young people from the Alp-region with a interrail-ticket under certain conditions. This offer is financed by different countries and organized by CIPRA - the organization behind the Alp convention. It works a bit like Erasmus+ and their offer for 18-year olds, only that it is specifially for youth in the Alp region. This offer supports directly both nature and green infrastructure. It should be implemented in other regions of Europe as well, as up in the north.
