R1 A23: Resolution for a just and permanent ceasefire in Gaza and lasting peace in the Middle East

Proposers Young Greens England & Wales

Motion text

Insert after line 70:

The ongoing complete blockade of Aid into Gaza by Israel for almost 3 months, has led to famine spreading throughout the Gaza Strip leaving the entire population at risk of death by malnutrition and starvation. The IPC assessment released Monday 12th May has found that around 210,000 people are facing catastrophic conditions in Gaza with the rest of the population facing high levels of acute food insecurity. This blockade has already led to the starvation deaths of many Palestinians mostly children and everyday it is allowed to continue more Palestinians die while aid trucks line up at the Rafah crossing unable to gain access because of the IOF.

Reason

Israel has blocaded any aid from entering GAza in over 3 months - This is the most current ongoing atrocty that could lead to the deahts of over a million people.
