Proposers DWARS

Motion text

From line 44 to 48:

ceasefire in Gaza and for displacing nearly every resident of the Gaza Strip multiple times. ~~Additionally, the ongoing Israeli invasion of Syria and the escalation in 2025 under the pretext of self-defense represent another case in a long line of violations of international law and sovereignty, which Israel has continually undermined with support from some Western countries.~~

The ongoing Israeli invasion of Syria under the pretence of self-defense is only one example in the long line of Israel's violations of international law and the sovereignty of states and peoples.Despite this Israel enjoys support from many Western countries.

Reason

We think the Israeli occupation of Syria deserves it own paragraph. Next to that we highlighted that many western countries continue to support Israel while they are violating international law and the sovereignty of states and peoples.
