Proposers Zelena omladina Srbije

Motion text

Insert from line 29 to 30:

building a unified defense to protect the EU, our citizens, values, and democracy.We must recognise the positions civilians find themselves in during conflict and war. This is done by guaranteeing that if conflict occurs, the utmost care is taken so that it affects as few people as possible. Therefore, we commit to ensuring all civilian infrastructure and civilians are never targets. We must protect the lives of those not actively participating in conflict and compensate any destruction or disruption.

Reason

There is a lack of focus on civilians during conflict in the resolution and this amendment aims to address that.
