P1 AM1: Activity Plan 2026-2027

Proposers Executive Committee

Plan text

From line 374 to 377:

~~The Ecosprinter will continue to be independently coordinated by the Ecosprinter Editorial Board, providing a platform for young Europeans to express their views on various topics, and with the support and ad-hoc steering of one of the members of the EC and technical support from the Office.~~

Due to a lack of candidates for the Ecosprinter Editorial Board in the 2026-2027 mandate, as well as the work required, FYEG will suspend the work of the Ecosprinter for the upcoming mandate and will take the time to reevaluate how the Ecosprinter works. It is expected that at the next General Assembly, the Ecosprinter will continue working with a full Ecosprinter Editorial Board, supported ad-hoc by the EC and technical support from the office.

Reason

This amendment is to keep our Activity plan in line with the IRPs and is done with the aim to give FYEG a chance to examine and streamline the work of the Ecosprinter. We are sad that we will be suspending the work of our magazine for a year, and sorry to the candidates who put themselves forward and applied to work on the Ecosprinter. We are however still planning to continue the work in the mandate after.
