## **Reason**

This statutory resolution is necessary to ensure the immediate application of the broader reform package concerning the democratic selection of the volunteer member of the Awareness Team. As related amendments restructure the election and ratification process, this resolution formally grants the General Assembly the immediate authority required to approve the proposed volunteer member without delay. By acting through a statutory resolution, FYEG can implement this governance reform at once, ensuring democratic oversight, legal clarity, and institutional consistency while the full IRP amendment package is being integrated. This approach guarantees that the General Assembly's role is immediately enforceable, strengthens transparency and accountability, and ensures that the broader participatory reforms can function effectively from the moment of adoption.
