R2 AM5: Climate Adaptation Is Justice: Care for Europe's Vulnerable Territories

Proposers Junge Grüne Schweiz

Motion text

Insert after line 104:

We condemn the ongoing failure of European nations to take sufficient action on the climate crisis, as demonstrated and confirmed by the European Court of Human Rights in the landmark case of the KlimaSenior*innen of Switzerland.
The failure of prevention and protection first and foremost endangers the most vulnerable, the elderly, the disabled, as well as FINTA* and the inhabitants of more rural environments, especially, but not solemnly, in the Mediterranean basin.
Demands:
The continuous condemnation of the insufficient action of the European nations regarding the climate crisis through the European Court of Human Rights as seen in the landmark case of the KlimaSenior*innen of Switzerland.
Full compliance of European nations with the rulings of the European Court of Human Rights regarding the insufficient prevention of the climate crisis and the protection of the most vulnerable, as well as the immediate implementation of demanded measures by the European Court of Human Rights.

Reason
To make it clear once again that the right to reasonable accommodation is a human right. As the European Court of Human Rights (ECHR) held in its judgment in the case of "Klimasenior*innen v. Switzerland."
