R2 AM18: Climate Adaptation Is Justice: Care for Europe's Vulnerable Territories

Proposers DWARS

Motion text

From line 76 to 78:

- **An ~~EU framework treating soil as a common good~~** ~~with targets for organic matter, erosion, and water retention, alongside large-scale ecosystem restoration and connectivity in vulnerable inland areas.~~binding EU framework treating soil as a common good with enforceable targets for organic matter, reduced erosion, and water retention.

Reason

We believe that a framework would not be effective on its own unless it contains binding enforceable targets
