R2 AM21: Climate Adaptation Is Justice: Care for Europe's Vulnerable Territories

Proposers DWARS

Motion text

From line 88 to 89:

- ~~**The recognition**~~ **Strong public financing, simplified administrative procedures, priority grid access,** **and** ~~**support of**~~**binding legal protections for energy communities**, enabling local ownership and governance of energy production and ensuring that economic

Reason

Also here, energy communities are legally recognised and can access EU funding, but still face many barriers in a market dominated by large energy corporations. We propose to specify what kind of support we want that is lacking at the moment
